

Certificate of Completion

THIS CERTIFIES THAT
CALEB FELLOWES

has participated in the following education session:

Care of Adults with Tracheostomy Tubes in the Acute Setting

Presenter The Nursing CPD Institute

In this session you will:

- Learn recommendations on how to maintain an airway via a tracheostomy tube including humidification, suctioning and general maintenance
- Gain knowledge regarding practices that will reduce the potential for infection in a person who has a tracheostomy tube
- Gain knowledge to assist you in managing a person with tracheostomy related complications including tube displacement and a blocked tube
- Learn about different ways a person with a tracheostomy can communicate

Completed on

03 May 2019 (duration of 2 hour/s)

This equates to 2 CPD Hour/s (Continuing Professional Development)

REFLECTION:

Tracheotomy/tracheostomy refers to an artificial opening into the trachea, which may be temporary or permanent. Adult patients with a Tracheostomy tube require complex care involving clinicians across healthcare specialties; highlighting the need for good communication, coordination and teamwork.
