

Certificate of Completion

THIS CERTIFIES THAT
CALEB FELLOWES

has participated in the following education session:

Guidelines for the Care of Patients with Hep B, C Advanced Liver disease and Ca

Presenter The Nursing CPD Institute

In this session you will:

- Gain an understanding of the guidelines that support contemporary nursing care of clients with hepatitis B, hepatitis C, advanced liver disease and liver cancer
- Review the incidence and symptoms experienced by clients who develop hepatitis B, hepatitis C, advanced liver disease and liver cancer
- Gain information on the role and function of Hepatology Nurses in Australia
- Review criteria and topics that should be incorporated into the care of clients with hepatitis B, hepatitis C, advanced liver disease and liver cancer

Completed on

03 April 2019 (duration of 1 hour/s)

This equates to 1 CPD Hour/s (Continuing Professional Development)

REFLECTION:

The AHA Consensus-based Nursing Guidelines have been established to guide nursing practice-related tools such as nursing care plans. These guidelines will be of use to support the development of policies and procedures and educational activities for Hepatology Nurses caring for clients with Liver medical conditions in a range of diverse healthcare settings.
