

Certificate of Completion

THIS CERTIFIES THAT
CALEB FELLOWES

has participated in the following education session:

High Risk Patient Populations & Pressure Injuries

Presenter The Nursing CPD Institute

In this session you will:

- Identify patient populations at high risk of developing a pressure injury
- Review each patient population to gain an understanding of the reasons for pressure injury development
- Become familiar with strategies to reduce the incidence of pressure injuries
- Learn key international recommendations to reduce the incidence of pressure injuries in these populations

Completed on

01 April 2019 (duration of 1 hour/s)

This equates to 1 CPD Hour/s (Continuing Professional Development)

REFLECTION:

Pressure injuries can occur at an increased frequency in high-risk patient populations. This session explores the recognised high-risk populations and identifies specific strategies recommended to reduce the incidence of Pressure Injuries in specific patient populations.
