

Certificate of Completion

THIS CERTIFIES THAT
CALEB FELLOWES

has participated in the following education session:

Wound Biofilm Management

Presenter The Nursing CPD Institute

In this session you will:

- Gain an understanding of the pathophysiology and risk factors for the development of Biofilm in wounds
- Explore the ways in which Biofilm inhibits normal wound healing
- Learn the signs and symptoms associated with Biofilm in wounds
- Receive knowledge regarding the latest (2016) recommendations for the removal of Biofilm in wounds

Completed on

04 April 2019 (duration of 1 hour/s)

This equates to 1 CPD Hour/s (Continuing Professional Development)

REFLECTION:

Nurses deal with complex and hard to heal wounds on a regular basis. Biofilm has been identified as a variable that can negatively impact wound healing and can be found in up to 60% of chronic wounds. This session uses the 2016 World Union of Wound Healing Societies (WUWHS), Florence Congress, Position Document. Management of Biofilm as the reference source.

Cheryl Dezotti

Director of the Nursing CPD Institute
