

## *Certificate of Completion*

THIS CERTIFIES THAT  
***CALEB FELLOWES***

has participated in the following education session:

### **Infants & Children - Management of Acute Gastroenteritis**

Presenter The Nursing CPD Institute

In this session you will;

- Gain knowledge regarding the most common complication's associated with acute gastroenteritis in infants and children
- Become familiar with the criteria that determine the level of dehydration
- Review specific strategies employed to manage dehydration including the use of a nasogastric tube and intravenous therapy
- Attain knowledge regarding the different types of rehydration fluids and the situations in which they are administered

Completed on

**03 April 2019 (duration of 2 hour/s)**

**This equates to 2 CPD Hour/s (Continuing Professional Development)**

#### REFLECTION:

Acute Gastroenteritis can have devastating effects on infants and children if not appropriately managed. This session reviews contemporary management of this medical condition. The clinical practice guide *Infants and Children Management of Acute Gastroenteritis*: fourth edition published by NSW Health is the reference source for this quiz.
