

Certificate of Completion

THIS CERTIFIES THAT
CALEB FELLOWES

has participated in the following education session:

Scabies

Presenter The Nursing CPD Institute

At the end of this session you will:

- Explain the signs and symptoms of scabies
- Understand the mode of transmission and how to prevent this
- Implement assessment and treatment protocols
- Prevent complications

Completed on

27 April 2019 (duration of 1 hour/s)

This equates to 1 CPD Hour/s (Continuing Professional Development)

REFLECTION:

Depending on your background and experience you may be very familiar with scabies, however many nurses are not. Aged care residents are a risk population, as are children but anyone can be infected. Recognising and responding quickly can reduce the misery and discomfort experienced as well as preventing further transmission. This quiz reviewed the signs and symptoms of a scabies infestation and treatment.

Cheryl Dezotti

Director of the Nursing CPD Institute
