

Certificate of Completion

THIS CERTIFIES THAT
CALEB FELLOWES

has participated in the following education session:

Vaccine Preventable Disease: Cholera

Presenter The Nursing CPD Institute

In this session you will:

- Gain information regarding the epidemiology of Cholera
- Learn the clinical features displayed by a person with Cholera
- Gain knowledge regarding the current available vaccines in Australia
- Attain information regarding vaccine precautions, considerations including special groups of individuals and the protocol for the vaccine administration

Completed on

30 April 2019 (duration of 1 hour/s)

This equates to 1 CPD Hour/s (Continuing Professional Development)

REFLECTION:

Cholera is an acute bacterial infection that is generally characterised by the sudden onset of painless, profuse, watery diarrhea. In rare situations, more than half the severe cases will die. Mild cases also occur, as does subclinical infection.
