

Certificate of Completion

THIS CERTIFIES THAT
CALEB FELLOWES

has participated in the following education session:
Risks Associated with Nasogastric Tube Removal

Presenter The Nursing CPD Institute

At the end of this session you will:

- Identify the various conditions requiring NG tubes
- Recall the protocols for safe insertion
- Explain the possible complications with tube removal
- Adhere to protocols for safe removal

Completed on

28 April 2019 (duration of 1 hour/s)

This equates to 1 CPD Hour/s (Continuing Professional Development)

REFLECTION:

While the risks for NG insertion are well understood, complications arising from the removal of NG tubes are not. The attached short article focuses on the problem of a knot occurring in the tube.

Cheryl Dezotti

Director of the Nursing CPD Institute
