- Attain an understanding of variables that must be considered when applying the principles of the Australian Open Disclosure Framework

Completed on

**22 April 2019 (duration of 2 hour/s)**

**This equates to 2 CPD Hour/s (Continuing Professional Development)**

### REFLECTION:

The Australian Open Disclosure Framework (the Framework) is designed to enable health service organisations and clinicians to communicate openly with patients when health care does not go to plan. Open disclosure has been implemented and adopted in various healthcare services both locally and internationally for over two decades. This session utilises the Australian Commission on Safety and Quality in Health Care, Australian Open Disclosure Framework document as the basis.
