

Certificate of Completion

THIS CERTIFIES THAT
CALEB FELLOWES

has participated in the following education session:

Delirium Prevalence and Incidence in Palliative Care Inpatient Settings: Implications for Nurse Recognition and Assessment of Delirium

Presenter Annmarie Hosie

Palliative Care Nurse of PhD Candidate at The University of Notre Dame Australia

In this session you will:

- Discuss the results of a systematic review of the epidemiology of delirium in palliative care inpatient settings
- Review implications for nursing in the recognition and assessment of this serious, distressing and potentially reversible syndrome
- Revise the present strategies available for assessment
- Reflect on your own nursing practice with this client group

Completed on

15 April 2019 (duration of 1 hour/s)

This equates to 1 CPD Hour/s (Continuing Professional Development)

REFLECTION:

Discuss the results of a systematic review of the epidemiology of delirium in palliative care inpatient settings; discuss implications for nursing in the recognition and assessment of this serious, distressing and potentially reversible syndrome.
