

This certifies that

Caleb Fellowes

has completed the

Airway Suctioning via the Oropharynx and Nasopharynx eLearning Course

This short eLearning course on airway suctioning via the oropharynx and nasopharynx is aimed at medical, nursing, and allied health staff. During this course, participants will become familiar with techniques used to suction via the oropharynx and nasopharynx. Participants will also review indications, precautions, and contraindications related to each of these techniques.
