

Certificate of Completion

THIS CERTIFIES THAT
CALEB FELLOWES

has participated in the following education session:

Rosacea

Presenter The Nursing CPD Institute

In this session you will:

- Learn about the incidence and suspected aetiology of Rosacea
- Review the signs and symptoms of Rosacea
- Gain knowledge regarding the different sub-types of Rosacea
- Consider the current treatment options for the management of Rosacea

Completed on

01 April 2019 (duration of 1 hour/s)

This equates to 1 CPD Hour/s (Continuing Professional Development)

REFLECTION:

Rosacea is a chronic facial skin condition of unknown cause. It is characterized by marked involvement of the central face with transient or persistent erythema, telangiectasia, inflammatory papules and pustules, or hyperplasia of the connective tissue. Transient erythema, or flushing, is often accompanied by a feeling of warmth. This session explores the signs and symptoms, diagnosis and treatment options for this common condition.
