

Certificate of Completion

THIS CERTIFIES THAT
CALEB FELLOWES

has participated in the following education session:

Pulmonary Embolism

Presenter The Nursing CPD Institute

In this session you will:

- Learn the definition of Pulmonary Embolism
- Review the aetiology of Pulmonary Embolisms
- Identify the investigations used to confirm a diagnosis of Pulmonary Embolism
- Gain information on the current treatment options for managing a patient with a Pulmonary Embolism

Completed on

02 April 2019 (duration of 1 hour/s)

This equates to 1 CPD Hour/s (Continuing Professional Development)

REFLECTION:

It is estimated that there are approximately 17,000 new cases of venous thromboembolism (VTE) in Australia per year. Pulmonary embolism (PE) accounts for about 40% of these events, and is an important preventable cause of morbidity and potentially death. This session explores the aetiology of Pulmonary embolism and the current treatment recommendations.
