

## *Certificate of Completion*

THIS CERTIFIES THAT  
**CALEB FELLOWES**

has participated in the following education session:

### **Critical Care Patient Blood Management Guidelines**

Presenter The Nursing CPD Institute

In this session you will:

- Learn about why a restrictive transfusion strategy should be employed for critically ill patients
- Review a suggested template for a massive transfusion protocol
- Gain knowledge regarding the effect of blood products e.g. fresh frozen plasma, cryoprecipitate, fibrinogen concentrate, and/or platelet transfusion on patient outcomes
- Learn about the specific considerations that must be considered for critically ill patients prior to administering a blood product

Completed on

**02 May 2019 (duration of 2 hour/s)**

**This equates to 2 CPD Hour/s (Continuing Professional Development)**

#### REFLECTION:

Critical Care Nurses regularly participate in Patient Blood Management and are required to be up to date with related clinical practice recommendations and guidelines. The National Blood Authority of Australia has published the document Patient Blood Management Guidelines Critical Care.
