- Explore popular childrearing practices and the impact of culture on development
- Acquire knowledge about the role of play in development
- Gain an awareness of what parents/caregivers fear the most about growth and development

Completed on

**30 January 2019 (duration of 1 hour/s)**

**This equates to 1 CPD Hour/s (Continuing Professional Development)**

### REFLECTION:

The infant learns more about themselves through the movement of their muscles, joints and exploration of hands and feet, with the cognitive and socio-emotional processes completing the experience and therefore it is important that as healthcare professionals, we know what to look for.
