

Certificate of Completion

THIS CERTIFIES THAT
CALEB FELLOWES

has participated in the following education session:

Supporting high quality end of life care: The role of the Residential Aged Care End of Life Care Pathway

Presenter Fiona Israel and Kris McAnelly
of Brisbane South Palliative Care Collaborative

In this session you will:

- Learn about the current challenges experienced in the provision of quality end of life care to residents in residential aged care facilities
- Gain information regarding the components of a 'good death'
- Gain knowledge regarding staff responsibilities in the provision of quality end of life care
- Learn about the Palliative Approach Toolkit and gain an understanding of the trajectories and the key processes to be applied

Completed on

14 April 2019 (duration of 1 hour/s)

This equates to 1 CPD Hour/s (Continuing Professional Development)

REFLECTION:

The Residential Aged Care End of Life Care Pathway (Pathway) is an evidence-based tool developed for Australian residential aged care facilities (RACFs) that guides good clinical care provided to a resident as they die. Evidence shows that the pathway improves outcomes of care for dying residents and results in fewer residents being inappropriately transferred to acute care facilities.
